CHICAGO DAY!

Anniversary of the Big Fire Celebrated by Political Parades.

Details of the Destruction of the City of Guayaquil by Fire.

The War Reviews the French Army in Camp at Versailles.

SPANISH STEAMER CAPTURED BY PIRATES

Chicago, Oct. 9.—Chicago day, the anniversary of the great fire twenty-five years ago, was observed here as a national holiday. Republicans and Democrats celebrated separately, each having a big street parade as well as smaller gatherings indoors. Practical every store and factory in the city is closed also the board of trade and the banks. From early morning the streets were jammed with cheering thousands marching to gain some sort of vantage point on the highest and most prominent buildings. Major streets and alleys were not allowed in town districts, the streets being entirely given over to sight-seers and gawkers. The weather was ideal. Bands, soloists, and conditions played all sorts of music. Scores of uniformed clubs paraded to the scene. Innumerable flags representing all kinds of trades and organizations were features of the parade. The bands and choirs marched to the railroads running express trains from points within a radius of a hundred miles. For such an immense crowd the procession was admirably handled.

One of the unique features was the immense transmitters stationed at different points of the march. Connected with distance telephone wires, and powered by their own dynamos, they were heard by those gathered in Canton and Paterson, N. J. To-night a procession of ten silver clubs and march over practically the same route. For the republicans, Chauncey M. New speaks at the auditorium to-night; this afternoon at Tattersall's, the acting will be Senator Henry M. Teller, etc., etc.

The republican parade moved with unusual rapidity owing to police arrangements.

The spectators were kept back by the sidewalks and buildings, but the street proper entirely to the marchers, who moved as a rule seven to eight abreast.

The parade started at 10 a.m. and lasted into the afternoon. General Palmer reviewed the procession and was bidden by the candidacy of Palmer and Buckner."

The wife and children died without a struggle, but Bray, with a gash in his throat, lived until noon to without regaining consciousness, has crushed the skulls of his victims with a scimitar after he used a razor upon them owing to sickness in his family and financial embarrassments. Bray lost his wife, son, and daughter, and his son, his daughter, went to bed with Anna Bray. Shortly after one o'clock he was awakened by Bray walking into the room in his stocking feet. He removed his daughter into an adjoining room where she was found with her throat from ear to ear. It is thought he was killed. Carl West, the boy was seized. Bray went into the room where his wife lay and slashed her neck and seeing the cut was too low, made a second and successful effort to kill her.

PERFECT FIRE.

The city of Guayaquil was almost destroyed by a conflagration.

New York, Oct. 9.—The Herald's correspondent in Guayaquil, Ecuador, telegraphed that three-fourths of that city was reduced to ashes by a fire which began in the middle of the night and lasted four hours, sweeping everything in its path. It is estimated that the financial loss will run far up in the millions. Some of the reports estimate it at \$40,000,000. Many lives were lost. Thirty thousand persons are homeless. Two thousand houses, including banks, are burned. The custom house and many public buildings were also swept away. The fire swept through the business portion of the entire business portion of the city. Practically all grocery and provision stores are burned, thousands of residents are homeless and the hungry swarm the streets and neighboring woods. It is impossible with the present food supply to feed the sufferers until assistance arrives. Coming at midnight, the fire destroyed many lives before those who were still sleeping. The dead numbered about two hundred, some who did not affect the suffering are great. Not only is the food supply extremely low, but the fresh water supply has been exhausted largely by the efforts of the fire to extinguish the flames. The air is filled with stinging dust of the cinders and ashes which add greatly to the suffering.

Complete results from twenty-nine counties gave Bloxham 21,519 votes, as against 2,000 for Mittiehead. In the same counties he had 15 per cent. THE BANDITS!

They Hold Up and Rob the White Oaks Stage.

Deputy United States Marshal Loomis Interviewed.

He Tells of His Chase and His Experience at Rio Puerco.

A GRAPHIC NARRATIVE.

Spotsylvania, Va., Oct. 9.—11:45 a.m.

The Hollenbeck stage was held up nine miles east of the mountain station, en route to White Oaks, and the robbers told the driver that their leader was killed at Rio Chico.

They demanded at once the express package of money and then searched the stage, cutting and robbing all the mail pouches.

They said they were going on to meet and rob the mail stage en route to San Antonio, which was then near Malpais pass.

At this hour the stage from White Oaks, over the twenty-four hours, has not yet reached here and the probabilities are that it will never do.

It is stated at this time several mail-bags and dollars toward on the dead-end road.

No later news are so far obtainable.

"If there are any rewards," remarked Mr. Loomis, "I don't know of them. The express company has a standing reward of \$500 for the arrest and conviction of these bandits, but I don't know whether this applies when the robber is shot and killed."

A photograph of the bandit taken at the time of his capture is shown to this reporter.

Gloucester, Mass., Oct. 9.—The sensational suicide of Treasurer George Marshall, of the Savings bank and the disappearance of his wife, Mary, daughter of the quiet estate and quiet home-missing created great excitement in Gloucester. The Cape Ann bank opened this morning for business, contrary to expectations. There was no run, although a number of people appeared to withdraw deposits. Requests were granted on all accounts less than \$500, on all deposits above this amount the bank would wait exact six days notice of withdrawal. The general opinion is that the bank will be able to continue. Examination of the trust funds and securities held by the bank is being made in Boston today.

It is now about sun-down, and knowing the gray horses to be unusually good ones, I thought it was useless to pursue in the night, so far behind them and with poorer stock. Mr. Seville and myself then rode all that night, reaching Socorro at the time for the south-bound train on the morning of the 5th. We went to Lake Valley, took the stage for Hillsboro, and the next morning, on account of the bad road, took a mule team to the ranch. I found two white or gray horses had been taken from Clement's back pasture two hours previously, and that two horses, not very workman, but exhausted and belonging to W. S. Hopewell, of Hillboro, and the other to Capt. Sanders, ranman, north of Magdalena, were left grazing in the corral.
